SIR REDVERS BULLER

Inform London War Office of Boer Attack on British at Estcourt.

LATTER MAINTAINED THEIR POSTS.

Vivid Description of the Encounter at Ladysmith on the Birthday Anniversary of the Prince of Wales.

London, Nov. 20.—The war office posted the following telegram from General Sir Redvers Buller at Cape Town to the Marquis of Lansdowne:

"The following is from the general commanding at Pietermaritzburg: 'Today at 8 a. m. the officer commanding our northern outposts reported that the enemy's mounted patrols were advancing across the whole country from Gourton Road to Ulandi, moving to Estcourt. My force stood to arms. The outposts reported various bodies, from 500 to 700 strong, advancing on Estcourt, from a northwesterly direction. One party, 500 strong, moved toward the railway bridge, half a mile northwest of Estcourt. Our outposts fired on the enemy, and one of the naval guns fired a shell at 8,000 yards' range, the shell bursting close to the enemy, who then hurriedly retired. At 12 o'clock reports were received from three pickets that a large number of Boers were in sight on a hill above Leslie's homestead. The troops have returned to camp.'

BRITISH JOLLIFY

After Repulsing Boers on Birthday of Prince of Wales.

Durban, Natal, Nov. 20.—The Times of Natal publishes the following, dated Wednesday, Nov. 15, from its special correspondent at Ladysmith:

"The enemy made a determined attack on Thursday, Nov. 9. Apparently all the Boer forces participated. Their artillery opened at 4 a. m., pouring in shells thick and fast upon the British positions, although with no great effect. They adopted the unusual tactics of advancing under cover of their guns to positions on the ridges and kopjes adjacent to those occupied by the British troops on the left of our camp.

"Continuing their advance, the Boers crept up, using every available bit of cover. Our infantry opened with a steady, warm and accurate fire, which beat back the enemy, notwithstanding a display of tenacity of purpose equal to their desperate stands on previous occasions. The Boer attack was most elaborate on all sides of the town.

"The main attack, however, was made between the Free State and New Castle railway lines by a column composed of Johannesburg volunteers. A brigade of the King's royal rifles corps made a splendid defense. The Boers were repulsed, but soon rallied and returned to the attack. Again the British fire, which was very hot, forced them to retire. They had made a deep trench in front of the British lines, and, while withdrawing for their horses, they left this unguarded, whereupon the King's rifles, advancing at double quick, occupied the trench.

"This smart movement was not seen by the enemy, who soon returned with the horses. Carefully reserving their fire, the King's rifles allowed the Boers to advance almost to the edge of the trench, and then poured volley after volley into the astounded Boers, who turned and fled from an awful hail of bullets, bolting across the open, where the artillery of the British poured in a terrible and effective shell fire. The enemy lost heavily.

"Meanwhile another section of the Boers had brought a mortar into action, firing heavy shells. Our guns, concentrating upon it, soon silenced this weapon, the enemy's artillerymen fleeing headlong. The Boers then advanced in force with a view of repairing the mortar, but our artillery shelled and scattered them right and left. The fighting was all over at 11 o'clock.

"Promptly at noon General White ordered a salute of 21 guns in honor of the birthday of the Prince of Wales. As the cannon boomed, cheer after cheer rang out from the troops and a scene of enthusiasm followed."

London, Nov. 20.—The first definite news regarding the fate of Winston Churchill was conveyed to his mother by a representative of the press. Lady Randolph had just returned home from a quiet dinner with a few friends when the gratifying intelligence that her son is living was conveyed to her. The fact that his wound is not necessarily dangerous and that he is alive in Pretoria caused her the greatest gratification.

London to the British.
New York, Nov. 20.—When the At-

lantic transport liner Manitou sailed she had on board Dr. Hastings and 29 male nurses, orderlies and dispensers who will join the complement of the medical and surgical staff of the hospital ship Maine, loaned to the British government by the Atlantic line for hospital duty in South African waters.

ROUGH TREATMENT.

White Woman and Two Negroes Tarred and Feathered.

Bellefontaine, O., Nov. 20.—The town of West Liberty, Logan county, during the night had a mob of 150, including it is said, some of the most prominent people, who battered down the jail doors, took out Neil Jackson, white, Ed Jackson, colored, and David Richmond, colored, tarred and feathered them thoroughly, and, parading them through the streets, started them on the road towards Bellefontaine. They had been arrested on suspicion of having fired a barn. The woman is the wife of a negro.

Death of a Kentuckian.

Lexington, Nov. 20.—Major Henry Clay McDowell, probably the best known citizen of Kentucky in private life, died after a long illness of heart trouble. He served with distinction in the civil war on the staff of General Rosecrans, and since the war has been a prominent Republican. He married Anne Clay, granddaughter of Henry Clay, and purchased the historic Ashland, Clay's country seat, in the Lexington suburbs, where he resided. He was a famous entertainer and every important personage who visited the Blue Grass region was his guest. He was president of the Lexington and Eastern railway, and a successful breeder of trotting horses. Thomas C. McDowell, a noted western turfman, is his son. Major McDowell was born in 1832.

Big Purchase of Wheat.

Kansas City, Mo., Nov. 20.—Alfred Duttenhofer, who is at the head of a grain firm with houses at Mannheim and Dulsburg, Germany, has just closed deals with several grain firms involving a purchase of several hundred thousand dollars worth of southwestern wheat, and left for Galveston, where he will make arrangements for the shipment of the grain to Europe. "The failure, or the partial failure, of the Russian wheat crop," said Mr. Duttenhofer, "is responsible for the purchase. The quality of the Russian wheat is so poor this year that we do not care to use it."

Started For Charleston.

Washington, Nov. 18.—The Culgoa started from Hongkong for the wreck of the cruiser Charleston. Naval officers here believe she carries a force of wreckers in accordance with Admiral Watson's direction, and at least a sufficient plant to make a thorough examination of the hull of the ship. If she can manage to approach the wreck and lift off the big turret guns it is believed that the Charleston can be floated.

Bad Night For Hobart.

Paterson, N. J., Nov. 20.—Vice President Hobart did not pass a very restful night. Dr. Newton was with him a number of times and had to administer medicine to his patient during the night. After sunrise Mr. Hobart was better and was resting comfortably.

After the Foxes.

Irvine Depot, Ky., Nov. 20.—The stake trial of the National Fox Hunters' association began at Sand Hill. There were 28 dogs started, but owing to the dry condition of the track the hounds could not keep the scent, although two red foxes were jumped.

A Camera Trust.

Chicago, Nov. 20.—A movement having for its object the consolidation of all the camera manufacturers into a trust is being quietly made and already it is said options have been secured from nearly all the manufacturers in Chicago.

Sailed For New York.

Southampton, Nov. 20.—The American line steamer St. Paul, which sailed from here to New York, has become her passengers William M. Osborne, United States consul general to London, and R. A. Alger, Jr.

FLEECED MANY WOMEN

Arrest of a Noted Swindler by a Smart Detective of New York.

HOW HE WORKED RASCALLY TRICKS.

A Number of His Victims Face Him in the City Prison and Relate Their Sad Experiences to the Police.

New York, Nov. 20.—The police have at headquarters James C. Hart, who spent 18 months in Sing Sing for swindling a woman out of \$10,000 worth of diamonds, and whose latest operations, carried on in New York city, have consisted of swindling women out of sums of money varying from \$75 to several hundred dollars their jewelry, or whatever else he could successfully lift and carry away. For the past three months Hart has done a lucrative business, and at police headquarters, when he was confronted with a number of his victims, he confessed to the crimes one by one.

Hart was arrested by detectives who were waiting for him on Friday outside of the Alhambra hotel, from which place he was rapidly making his way after having swindled a woman out of \$300. She, finding she had been victimized, went to police headquarters and found the police had Hart already under arrest. Chief of Detectives McCluskey then held a kind of reception of Hart's victims, all of whom identified him positively as the man who had swindled them. In each instance Hart admitted his guilt.

Hart was arrested on Dec. 10, 1896, on the charge of grand larceny, he having stolen diamonds to the value of \$10,000 from Mrs. Elizabeth De La Barre. He pleaded guilty to this offense, the complainant in the meantime having died, and was sentenced to only 18 months in prison.

On Oct. 20, 1898, at the Bates house, Indianapolis, as John J. Hillis, he swindled Edward Geis out of \$250, for which he received a sentence of six months' imprisonment and \$1,000 fine.

Earthquake-Proof Palace.

Chicago, Nov. 20.—Chicago engineers are designing the earthquake-proof steel palace for the crown prince of Japan, which is to mark the advent of American steel construction in the Mikado's land, and the imperial government has appropriated \$3,000,000 for its erection. Foundations are being constructed with a view of rearing the frame work in February. Around the skeleton of beams and bars will be built a house of granite and marble expected to eclipse in beauty of design anything the Orient has ever known. The palace will adjoin the royal home of the Mikado in Tokio, rising to a height of 60 feet. Dr. T. Katayama, chief architect of the imperial household of Japan, who came to America to let contracts, has commissioned the men who designed the Manufacturers' building at the World's fair to prepare frame work plans. Still another engineer was called upon to map out an elaborate heating and ventilating plant. American firms will contribute an ice manufacturing and electric light system. Steel construction, with its rigid elasticity, is expected to revolutionize the building industry in the Mikado's land, where earthquakes have on several occasions played havoc with structures supposedly solid.

Scarcity of Leather.

Chicago, Nov. 20.—All kinds of leather and hides in the United States and Canada have taken a sudden jump in cost because of a general scarcity of the raw and manufactured material, putting the markets almost in a state of panic. In the last 60 days the best grade of oak butts, which are used for belting, have advanced from 36 to 40 cents a pound, and the first quality of oak leather used in the making of boots and shoes has risen from 34 to 38 cents. A year ago belting leather was down to 30 cents a pound, with other kinds of tanners' goods in proportion. The Transvaal war is helping to drain the low available supplies of American leather and add to the famine prices.

More Fusiliers Missing.

London, Nov. 20.—The following additional dispatch was received from General Buller: "Referring to the armored train at Estcourt, I have to report that three more men of the Royal Dublin Fusiliers are missing, namely, Lance Corporal Brady, Private J. Fitzgerald and Private E. Maguire."

Dr. Jones Selected.

Springfield, Ill., Nov. 20.—The executive council of the Modern Woodmen of America have elected Dr. B. E. Jones of Buffalo, Kas., as head physician, vice Dr. J. B. Hibben, deceased.

KNOX IDENTIFIED

As the Man Who Swindled a Kansas Bank by Bogus Drafts.

New York, Nov. 20.—Robert J. Knox, alleged to be one of the Whiteman gang of swindlers, was held by a city magistrate until the arrival from Albany of requisition papers which will give him into the custody of the Pittsburgh police. The delay in the arrival of the papers has been due to the absence from Albany of Governor Roosevelt, whose practice it is to review each case himself before signing the papers. D. W. Callup, assistant cashier of the First National bank of Woonsocket, R. I., which was swindled by the Whiteman gang, and A. J. Bennett, a real estate broker of the same town, were in court and identified Knox as "R. E. Webster," who deposited with the bank the bogus draft on Lawrence National bank of Lawrence, Kas., for \$10,000. The Woonsocket police are anxious to get Knox and Charles E. Stewart, who operated with him there, but who is now held in Pittsburgh.

Bubonic Plague Suspects.

New York, Nov. 20.—The steamer J. W. Taylor, which arrived from Santos, Brazil, with the captain and cook ill with suspected bubonic plague, has been disinfected as far as possible without discharge of cargo. The cabin, forecabin, decks and engineer's departments have been cleansed and thoroughly disinfected. The crew have been bathed and their clothes and effects have been subjected to steam. The patients are at Swinburne island, and there is no change in their condition. Deputy Health Officer Sanborn says the crew will be kept on board the steamer for another day, when the agents will supply a new crew. The crew will be removed to Hoffman island and detained for observation for 10 days.

About the Indians.

Washington, Nov. 20.—The annual report of the commissioner of Indian affairs, William A. Jones, besides reviewing the progress of affairs in all branches of the service, urges more schools, more systematic methods, study of individual traits and consideration of subsequent environment in outlining studies in the Indian schools. The entire educational system of the Indian office, he says, is predicated upon the final abolishment of the anomalous Indian reservation system. There are now 20,522 boys and girls in attendance on the various Indian schools out of an enrollment of over 25,000.

American Shipping.

Washington, Nov. 20.—The annual report of Mr. Chamberlain, the commissioner of navigation, shows that American shipping industries shared in the general prosperity. The total documented tonnage on June 30, 1899, comprised 22,728 vessels, of 4,864,233 gross tons, which is our largest since 1865. The tonnage operating under our coasting laws, 21,397 vessels of 4,015,992 gross tons, is the largest in our history, and greater than the coasting tonnage of any other nation. Our steam tonnage, 2,476,011 tons, for the first time exceeds the tonnage of all other craft.

First National Gathering.

Chicago, Nov. 20.—The executive committee of the National Republican league will meet in Washington, Tuesday, Dec. 12, to fix upon the time and place for its convention in 1900. The meeting has been called by President George Stone of San Francisco. The indications point to a considerable rivalry over a convention city. The convention will be the first national political gathering of the presidential year.

Tontogany Tragedy Recalled.

Bowling Green, O., Nov. 20.—Recollections of the mysterious death of Mrs. Peter Penney at Tontogany on March 4, 1895, were revived by the marriage of the dead woman's husband to his brother's wife, Mrs. Lydia Penney of Monclovia. The body of Mrs. Penney was found at the office door of Dr. A. Eddmon at Tontogany, and the arrest, trial and acquittal of the doctor and his wife followed.

Remains Identified.

Fort Scott, Kas., Nov. 20.—The unknown man whose body was found Thursday night in Mill creek, six miles from here, weighted down with a heavy chain and sack of stones, has been identified as Leopold Edlinger, a farmer living near Rockville. When last seen Edlinger had drawn his money from a Rockville bank. He was undoubtedly murdered for his money.

The Railroads Got Them.

Greenville, O., Nov. 20.—Charles Curner was instantly killed by the south-bound train on the D. & U. railroad. His father was killed on the same road 31 years ago under similar circumstances. His brother-in-law, C. F. Young, was also killed at Jaysville three years ago.

FIFTEEN ARE KILLED.

Shocking Wreck of a Passenger Train on a Western Railroad.

STRUCK A HANDCAR ON A CURVE.

The Coaches Were Derailed and Tumbled into a Lake Beside the Track, Causing Great Sacrifice of Life.

Minneapolis, Minn., Nov. 20.—A telephone message from Sioux Falls says: A passenger train on the Chicago, St. Paul & Omaha was wrecked near Hamburg, Ia., and 15 persons were killed. The train, in rounding a curve, came upon a hand-car containing five men, who jumped and saved their lives. The train struck the hand-car and was derailed, tumbling into a lake beside the track and 15 people perished.

Fatal Freight Collision.

Chicago, Nov. 20.—The Illinois Central fast freight train from St. Louis crashed into the Springfield special stock train near Riehton, Ill., killing one man, injuring one and wrecking four cars and an engine. J. A. Clark, a stockman living at Thomasville, Ill., was asleep in the caboose and was instantly killed. Engineer Edward Poole of the St. Louis train, and his fireman, William Layton, jumped from their engine. Poole received bruises about the head and his ankle was broken. The collision was caused by a heavy fog.

A Filipino Surgeon.

Manilla, Nov. 20.—The following dispatch has been received here from correspondents accompanying the American advance to Panique: "General MacArthur's troops arrived from Geronia in the morning. General MacArthur discovered here Major Joneson, formerly chief surgeon on the staff of the Filipino commander, General Mascardo. He resides at Bacaloo and is about to return there to resume his practice. Major Joneson says that all respectable Filipinos are disgusted with the behavior of the insurgents and are very glad that the Americans have the upper hand."

The Patria Gutted.

London, Nov. 20.—The Hamburg-American liner Patria, which caught fire in the English channel last Wednesday while on her way from New York for Hamburg, and which was finally abandoned Thursday noon, when all attempts to tow her to some port had failed, now lies between Walmer and the south foreland, on the Kentish coast. The depth of the water an hour previous to her sinking was seven fathoms. She is still on fire forward, but there is no smoke about the bridge. At low water she will be partly dry. Apparently the fire has completely gutted her and rendered her a total wreck.

Congressman Settle's Funeral.

Owenton, Wyo., Nov. 20.—The funeral of the late Hon. Evan E. Settle, congressman of the Seventh district, took place here in the Baptist church. Rev. Mr. Waldroot made the principal address. Midlane, California; T. M. Griffith, Indiana, and W. H. Bromwell of Ohio.

Peacemaker Killed.

Washington, Nov. 20.—During a fight between Charles F. Ormsby and George F. Barnes, Charles F. Ormsby, 28, who attempted to act as peacemaker, was hit a severe blow on the chin, knocking him down. The fall caused a fracture of the skull, from which he died. The fatal blow, it is said, was struck by Ormsby, although he denies all knowledge of such act. He has been locked up and a charge of murder entered against him.

Given Ten Years.

Kansas City, Mo., Nov. 20.—Leonard B. Imboden, formerly of Fort Worth, Texas, who, two months ago, was found guilty of conducting a "wildcat" bank in this city, has been formally sentenced to 10 years' imprisonment in the state penitentiary at Jefferson City. WEATHER FORECAST FOR KENTUCKY—Rain in eastern portion; rain in western portion Monday. Tuesday rain; easterly winds.

HON. CHAMF CLARK, the conspicuous Democratic Congressman from Missouri, in an interview the other day, made a guess that the coming session of Congress "will be a long, hot and eventful session." He also says: "The Republicans have only thirteen majority—the fatal thirteen—and they can't run over us by brute force. All bad measures they pass this time will be after a hard fight, and after every parliamentary expedient has been exhausted. This session will be a history maker, and a battle royal from start to finish."

GOVERNOR BRADLEY

Confers With Colonel R. D. Williams of Second Kentucky Regiment.
 Lexington, Ky., Nov. 20.—W. O. Bradley and the adjutant general of the state guard, Daniel Collier, conferred here with Colonel R. D. Williams of the Second Kentucky regiment and the latter returned with them to Frankfort. None would talk. Republican leaders professing to be close to the governor, but having no announcement from him personally, say that if Louisville is thrown out Bradley will refuse to recognize Geobel as his successor and will maintain his position even if forced to use the militia. The governor's movements are closely watched from every angle.

Kentucky Election.

Louisville, Nov. 20.—At Glasgow Judge Jones rendered his decision in the Nelson county case, granting the writ asked for by the plaintiff, William S. Taylor, directing the precinct election officers to correct the error in their respective precincts for William S. Taylor, heretofore certified by them for William P. Taylor. Democratic newspaper figures for the first time show pluralities for Taylor on official returns from 118 counties. The Republican candidate has a plurality of 261. In these figures the unofficial vote of Jefferson, the only missing county, is taken. Republicans claim 3,134 for Taylor. The federal grand jury returned 20 indictments against election officers, but refused to give their names.

The Tomato Cure.

The tomato is now definitely assigned a place as a tonic among foods. A noted physician has made extensive experiments with the juice as a medicine, and says as a health-preservative it is unequalled.

No Right to Ugliness.

The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and all run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and a wretched complexion. Electric Bitters is the best medicine in the world to regulate the stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. It will make a good-looking, charming woman of a run-down invalid. Only 50c. at J. J. Wood & Son's drug store.

AGNOSTICISM.

I. is More of a Fad Than It is a Philosophy.

(Rev. Dr. Charles H. Parkhurst in New York Journal.)

Agnosticism is a good deal more a fad than it is a philosophy, and is due not so much to the fact that people think, as to the fact that they have never learned to think, and consequently are made tired by thinking and want some plausible excuse for quitting it. So far from God being unknowable, I know of no being that has so universally and everlastingly laid himself open to inspection as he has. The universe is intelligently constructed, and intelligent construction is something of which intelligence only is capable. Everything that nature contains gives some hint as to the kind of being that the creative intelligence belongs to. Everything that a man does tell us something about the man. If a person writes me a letter I infer from the letter something as to the quality of the person that writes it, and if he keeps writing to me I come in time to know a good deal about him, even though I may never have heard him speak.

Or, if I look out of my window and see a man at work I shall, after a quarter of an hour's watching, have some rather definite idea as to what sort of a fellow he is, and if he has a job that keeps him employed in front of my house a week I shall become fairly well acquainted with him by that time, though we may not in the meanwhile have exchanged a word. For me to say that at the end of a week that I stand toward the man in merely agnostic relations and could not know anything about him because we had not chatted together would be to convict myself of being either an idiot or a faddist. Now, the Creator has been working in front of my window ever since I was born; his works lie around on every hand, and every atom of all those works betrays to some extent the character of the maker. That is the way that in all inter-human matters the mind works, and it would work in just the same way in regard to Divine matters if either we were not so brain-tired that we did not care to think so far, or so wicked that a world without God would be more a comfortable and cozy one to us than a world with God.

Russell's Comedians To-night at Opera House.

That Dunkirkers appreciate a good variety show was demonstrated at the opening of the theatrical season when Nelson's Opera House was filled by those who went to see Russell's Comedians. From the rise of the curtain to the final drop all was mirth and wholesome fun. The company is a success.

Seldom does one see more stars in a troupe. It might be called an "all star cast." Fred P. Russell has shown his ability to select a good company and it would seem as though gold would line his pockets by the end of the season. The company includes Richard Valentino, the cornet soloist; the Pattons, Hassler, Mazier and Gonley, Parentello and Hughes, Leonzo, J. Marcus Doyle and the three Zella Brothers.

The acrobatic work of the Zellins is the sensation of the city. Mr. Doyle received an ovation when he appeared to do his superb song and dance turn. Leonzo cannot be excelled as a juggler. His plate and top spinning surpass belief. Bertie and Hughes are a whole show in themselves as a musical team.—Dunkirk Daily Herald.

COMING TO MAYSVILLE

If 200 Reserved Seat Tickets at 75 Cents a Seat Are Guaranteed.

Mr. Henry G. Andree, pianist, and Mrs. Nina Pugh Smith, contralto, are well known to quite a number of Maysville people. In regard to Madame Smith, this from an Ottawa press notice:

All the fashionable world in Ottawa is looking forward to a great treat when at the Woman's Morning Music Club concert, under the patronage of her excellency, the Countess of Aberdeen, Madame D'Alvigny, who received such an ovation at the Plaucon concert in Montreal on Thursday evening, will give several selections. She has a most exquisite voice and certainly has a most winning personality. I had the pleasure of meeting her at the Government House skating party. Madame D'Alvigny is an American. She was born in Ohio, but has spent much of her life in France, where she received her training and made her artistic debut.

Another press notice:
 A crowded audience filled Windsor Hall on Saturday evening at the concert given by Mous. Poi Plaucon, the world-famed operatic basso. He was assisted by Madame D'Alvigny, who possesses a magnificent voice. Her English songs are perhaps most appreciated, the "Garden of Sleep" being inexpressibly sweet and tender.

Names to the amount of \$100 have been subscribed. It is hoped that the musical public of Maysville will not allow such a concert to be given anywhere but in the opera house. This can be avoided by those who wish to hear a very fine concert adding their names to the list in the window of Mr. J. James Wood & Son's drug store.

Another Chapter in the Eckman Family Troubles at Mt. Carmel.

(Covington Item in Enquirer.)

About 7:30 o'clock Friday night a stranger, claiming to be from Mason County, called at police headquarters and inquired of Lieutenant Schulkers if they could arrest a man for stealing a child. The Lieutenant informed him that it all depended on whose child it was, when the stranger stated that it was the man's own child, to which the officer responded that that was different.

The stranger then said that he was looking for Mr. Frank Eckman, who had stolen his own son, Charles Eckman, a lad of ten years old, from his home at Mt. Carmel, Ky., and was supposed to have come to this city.

Mr. Frank Eckman is a brother of Jail Physician Dr. Guy Eckman, of this city.

An Enquirer reporter inquired of Dr. Eckman if his brother was here, and on receiving a reply in the negative informed the doctor of what he had learned, which greatly surprised the doctor. He said that divorce proceedings were pending between his brother and the latter's wife, which would come up for trial next January, but further than that he knew nothing.

He had received a letter from his brother the day before, but the latter had not intimated of any intention of leaving home and taking his son with him.

The stranger left police headquarters without revealing his name, and is probably on a still hunt for the missing man and boy.

IMPORTANT INVENTIONS

Show That Great Minds Run In Same Channel.

[New Orleans Times-Democrat.]
"A man in my line of business," said a local attorney who makes a specialty of patents, "has an exceptional opportunity for finding out that great minds run in the same direction. It is a remarkable fact that fully seven eighths of the important mechanical appliances of the past 50 years have been the subject of litigation on the ground of priority of invention. In almost every instance it was clearly shown that different people, sometimes as many as five or six, were at work on the same idea at the same time, each unknown to the other. A somewhat plausible explanation has been advanced for these remarkable coincidences," continued the lawyer. "It is, in brief, that certain universal needs suggest similar trains of thought to active minds, and, in searching for the best remedy, they fall insensibly into the same channel. This is only another way of saying that necessity is the mother of invention, but it is hard to apply the theory to scores of devices that were certainly not the subject of any specific demand. Take the telephone, for instance. At the time Prof. Bell was perfecting his instrument at least three other inventors were developing the same thing, and he beat them to the Patent Office by a mere scratch. Everybody remembers the long and bitter contest that ensued, and I believe, personally, that each of the parties to it was in entire good faith, although it is almost impossible to convince an inventor, under such circumstances, that there has been no fraud. Every man believes firmly that the other fellows have stolen his idea. The arc light, the

incandescent light, the X-ray apparatus, the typewriter and the gas engine are a few of the big things I call to mind at random in which there was the same coincidence of thought. Two of the latest and most remarkable instances in point are wireless telegraphy and liquid air.

"The fundamental principles of both were old and had been experimented with and discarded as impractical. Then suddenly, after the lapse of years, two groups of inventors began the task of development. In wireless telegraphy Marconi had three rivals, one an American, but he was fortunate enough to get out his patents ahead of the others. Who built the first successful liquid air apparatus is at present in dispute, and two companies, each headed by a claimant, are now in full blast in New York. If ever you have an extra good idea you will do well to secure the protection of a patent without delay. It is fifty to one that some other chap is pegging away at exactly the same thing."

His Life Was Saved.

Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from frightful death. In telling of it he says: "I was taken with typhoid fever that ran into pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and now am well and strong. I can't say too much in its praise." This marvelous medicine is the surest and quickest cure in the world for all throat and lung trouble. Regular sizes 50 cents and \$1. Trial bottles free at J. J. Wood & Son's drug store every bottle guaranteed.

Shootin' STARS

Are one thing and shootin' game is another. The two subjects scarcely bear any relation to one another, unless it be in the disappointment each affords. Weather conditions sometimes interfere in the meteoric event, while the failure to borrow a neighbor's Gun often postpones the other. This is fine weather and the hunting season is on. No need to borrow now, for we are making prices so low this season that every sportsman can afford to own his own Gun. We sold lots of these goods last fall, but are anxious to make this season's sales the greatest in the history of the house and are offering special inducements to that end. In the matter of

GUNS and Ammunition,

we carry a full line of everything offered by the trade.

Recently we had something to say on the subject of WIRE FIELD FENCE. The large invoice we purchased before the advance in prices has arrived, and we have some convincing arguments in store for prospective buyers who will come in and talk the matter over with us.

The Cincinnati Leaf Tobacco Warehouse Company in its circular for the week has the following:

"The new crop of tobacco, though only sparingly offered as yet, seems to receive better attention than the old, or at least as good, for, when the low grades in their present state bring 6c, that certainly would make them worth 8c in dry condition. Of course, it is by no means certain that these goods will command the same prices when liberal offerings take place, and we think that the present figures should encourage early shipment. We believe that a considerable part of them will be marketed before the first of the year, if the weather permits. It has been on the breaks so far can serve as a criterion for the crop in general, then it seems to have plenty of body and color, and will, on the whole, probably equal in merit the old crop. We also think that the yield will be about as large.

"In old stock we have to report light sales and lighter receipts. The bidding on everything that is offered is quick and active, but no change in prices is noticeable, low grades selling at full quotations, and the medium and fine goods frequently below the expectations of shippers.

"Only four or five weeks remain for sales in the present year, and it appears that there cannot be much change in the stocks in market. Receipts will certainly be light and sales also are not apt to be large."
